

QUIGS Drop down day

QUIGS Drop Down Day-
Wednesday 25th May 2022

Year Group	EYFS and Years 1-6
Trip Location	Queen Elizabeth Olympic Park
EYFS and primary students visited the Queen Elizabeth Olympic Park to celebrate the Queen's Platinum Jubilee. The students learnt about the British Monarchy and the role of the Queen. On our journey we took the new Elizabeth line and children showed a lot of interest in the name behind the naming of the new train. They were able to recall this on the way back and remembered the significance behind it. During the week, children have been learning about what the 'platinum Jubilee' is and why we are celebrating it by making their own crowns, flags and being involved in other activities about Britain and the Queen. At the park the children had the opportunity to run free in the amazing play areas across the Park as well as climbing walls, sand pits and the outdoor gym. Khadeejah Z (Year 1)- " I felt happy because I played in the sandpit and we went on the new Elizabeth Line. Oh and the gym area because I done gym". Maryam Chamadiya (Year 2): "The jubilee is really special for the royal family. For this reason, we visited the Queen Elizabeth Olympic park to celebrate the jubilee. The Queen has ruled for 70 years, that is very special for them." AAMINAH CHAMADIYA (Year 6) was good and I liked it because we learnt about the jubilee and fun interaction and I didn't know how many years the queen was in reign. today i found out that the platinum jubilee meant that the queen was in service for 70 years which was the first monarch in history to rule for that long.
