

QUIGS Drop down day

QUIGS Drop Down Day- Wednesday 30th March 2022

Year Group	Year 2
Trip Location	Kew Gardens
 	
Inaayah Uddin: "The trip to Kew Gardens was amazing! I loved the Treetop Walk as I got to see the beautiful nature around me very clearly. We looked for different types of plants such as daffodils, wild garlic, bluebells, cherry blossom trees and tulips. The environment was extremely clean and full of nature!" Umaymah Serrar: "I saw different types of beautiful plants, flowers and trees. It was so much fun in the children's play garden. There were four sections, water, air, sun and earth. This helped to remind me about what plants need to grow!" Maryam Chamadiya: "The trip was very exciting and interesting! I real enjoyed it. I saw people who worked there, taking care of the environment by watering the plants, cleaning the surroundings and adding new plants. That taught me to respect nature and take of the environment. We learned the importance of pollination at the information point, which explained that without insects passing pollen, plants won't grow".
