

Drop Down Day

Quwwat ul Islam Girls' School

Year Group	Year 1
Trip Location	The Science Museum

The trip to the science museum was linked to our Spring 2.1 Literacy book called 'Toys in space' as well as old vs new technology which they have been learning about in History this term.

Learning Driver- 'caring for our education'

UNCRC- Article 27 'Right to education' I have the right to an education which develops my personality, respect for others rights and the environment.

Students had the opportunity to see real life models of the key elements in their core story that they have been learning about this term, such as spaceships, planets, rockets and methods of transport. They enjoyed having conversations about their own experiences and were able to make links between the story and what they saw at the museum. The coach journey allowed the children to view the famous landmarks of London and they enjoyed talking about each of the places. We spent a lot of time on the 2nd floor of the museum looking at old phones, old medical equipment and old gaming toys. They were able to talk about how technology has developed and were able to recall the differences in past and present toys and technology. Children found it fascinating to look at the technology from the past and enjoyed asking adults how things worked. They displayed great curiosity about portraits and pictures and asked adults to read what it said to find out more.
