

QUIGS Drop down day

QUIGS Drop Down Day-
 Wednesday 22nd February
 2023

Year Group	YR7, YR8, YR9
Trip Location	Science Museum (Eniquer Gallery/Wonderlab)

YR7

"It was a really adventurous way to learn new things" - Qiyyamah Ali

"The experiments were fun and educational" - Faizah Zaman

"I learn new things about science related to forces and space" - Nurulain Fatima

YR8

"I enjoyed creating static shocks" - Najma Cimarik

"Magnetic liquid was amusing" - Daneya Ibrahim

"We learnt about friction and speed from the friction slide; One slide was made out of grass, one was made stone and the last one was made out of wood. From the slide, we had to figure out on which slide less friction would take place making it the fastest slide" - Aishah Din

YR9

"I enjoyed the shadow room that trapped our shadows on a screen. The lab also included activities where we needed to use our math skills" - Sahara Hussain

"It was an educational and adventurous trip. I enjoyed experiencing earth and its orbit" - Farhat Hoque

"There was an activity where we had to pull ourselves up on a machine. This helped me reflect on different aspects of physics, like forces, gravity and different types of energy, such as gravitational potential energy." - Tanjima Torsa
