Year Group	EYFS
Date:	Wednesday 18 th December 2025
Activity	Student Evidence/Feedback
Right to healthy lifestyle, Fruit salad - Students learnt about food hygiene, they washed their fruit before they started to prepare the fruit salad and all their utensils, they then chose what they wanted to add to their fruit salad, next they chopped it up. They mixed it all up together and enjoyed eating their fruit salad. support/supervision was given throughout the activity,	      Safiyya said "we are doing the activity because it is healthy and we have a right to be healthy", all the students understood that it's important to eat healthy. Nusaybah said "it will make you big and strong".
Right to play games, Problem solving skills, treasure hunt games, students had to solve puzzles/riddles by reading a clue to progress through the game. This helped students develop problem solving skills and enhance their critical thinking abilities.	      All the students enjoyed this activity, they said it's fun. They worked together to help each other to find the clues and the treasure. Saffiyah said 'where is it hiding, I need to find it' her friends pointed to places that she should go to look. Saffiya helped Inaya to think about where the treasure could be using the final clue. All the students were excited and happy when they found the treasure at the end.

Right to relax, Snack time, story time. Children enjoy listening to stories as their brains are hard at work trying to create images and make connections from the text. These mental processes help children develop their cognitive and language skills and improve their memory, focus, and attention span.

The students enjoyed relaxing at the end of the day with their milk and snacks and settled down for story time. All the students knew why it is important to all relax. Nusaybah said that we need to relax “so our body can get energy”. They all knew that it is important to have their own free time to relax.
