

Post 16 Workshop

15th October 2025

Representatives from Central Foundation will be speaking to the girls to give them an overview of CFGS6, including the range of academic and vocational pathways available after Year 11. The session will outline entry requirements, subject combinations, and progression routes into university, apprenticeships, or employment. The supportive environment at the college, along with the wider enrichment opportunities on offer, will also be highlighted. The talk will also support the girls in thinking more broadly about their post-16 options and the different routes available to them after completing Year 11.

Central Foundation

Speaker: Senior Prefect
