

Post 16 Workshop

25th February 2026

Representatives from Newham College London, including NewVic Sixth Form Centre, will be speaking to students about post-secondary options, including A-Levels, T Levels, BTECs, apprenticeships, and Foundation Learning. They will explain how these pathways can lead to university, further training, or employment, and will describe the college environment, highlighting the independence students gain while still receiving support from teachers. They will also emphasise the importance of choosing courses that match students' interests and strengths to help them achieve their future goals.

New college london / NEWVIC

Speaker: Vice Principal
